NOTE.—At the Distribution of Profits for the Five-year period ending 31st December, 1909, the sum of $4,038,549.80 was apportioned for distribution in cash among Policyholders.

The "ROYAL" was established Sixty-six years ago, and is transacting an increasingly large business.

Careful Investments of Funds and Strict Economy of Management have always characterized this Company.

Commissions and Expenses of Management represent only 9% of the Income—a singularly striking evidence of the extremely economical Management.

Thus it is clearly and unmistakably indicated that the company, by the exercise of economy, is effecting unusually large savings for its Policyholders.

The same rate of BONUS has been maintained unaltered for the past 45 years by the "ROYAL."

Looking into the future in the light of the tried and proved experience of 66 years, the prospects can be regarded with the utmost confidence.

Absolute Security and Complete Safety

of the Funds of an Insurance Company should constitute the first attention of an intending insurer.

Branches at

Outlook and Elbow, Saskatchewan

We have extensive land holdings in the Outlook, Elbow and Hanley districts, Saskatchewan, and have for some years been colonizing these districts. We own and operate our own private car "Aileen," which is used for colonizing purposes, and enables us to do a large and successful farm land business. We solicit listings of lands and desirable tracts.

Special Features

Semi-Steel Grates and Linings that do not burn or wear away like ordinary iron. They last a lifetime.

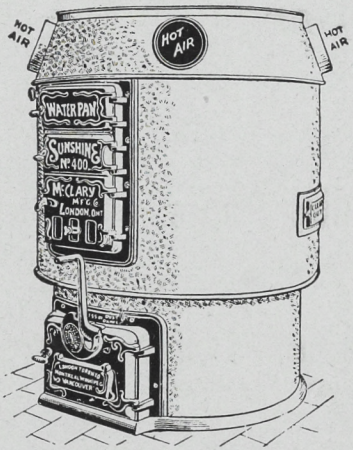
Burnished Top, that does not require black-lead or brushes to clean it. Just a rub with a cloth or piece of paper—that's all. Less dirt—less work.

Patent Broiler-door, that saves stooping when toasting or broiling.

Patent Duplex Grates, that are real coal-savers.

Twenty more special features. Inquire of McClary's Agent for particulars.

The Sunshine Furnace



Assures Comfortable, Healthy, Warm Homes.

Fire-pot is made of McClary's Semi-steel.

The Grates are McClary's famous Duplex pattern.

This furnace is constructed to give the maximum supply of hot air on low coal consumption.

See the Sunshine Furnace—Note the non-rusting water-pan, the large fire-door opening, the nickelled dome.

Our LUMBERSOLE Boots are guaranteed to keep feet warm in any weather, no matter how cold. They have threequarter-inch WOOD soles. Wood being a non-conductor of heat and cold, these soles keep the natural warmth of the foot IN the boot and keep the cold OUT. The logical and only effective footwear for Canadian Winter Wear. Prices, $1.75, $2.00 and $2.25—no higher. Absolutely guaranteed.

Genuine British Boots, Shoes Woolens, Etc.

We sell also genuine Scotch hand-knitted socks, scarfs, etc., guaranteed English moleskin pants and other sterling lines for warm, comfortable and durable wear during winter. Hundreds of genuine testimonial letters from delighted customers. Send for free catalogue.

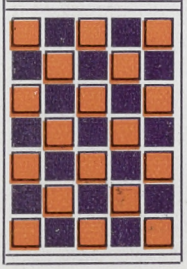
Anyone can Cut Prices but it takes Brains to make a Better Article



No Sir!

WE are NOT Blacksmiths. We do not profess to shoe horses, mules, or any other stubborn creature, but we are *Printers* who can, with type and ink, put on paper your highest conceptions of thought in the most artistic business getting manner.

You don't expect a Blacksmith to be successful in making you a really reliable, first-class time-keeping watch with his ordinary horse-shoeing tools and experience. No—and if you want brains, workmanship, and genius put into your printing, men of ability with the co-operation of all the latest devices in machinery and material must of necessity be brought into action.

Now, we are not egotists, but believe me, we have got the goods.

Neither time nor money has been spared in getting everything of the best obtainable and it is at your service.

We will not turn down your smallest order, neither will we balk at your largest, even though it be the highest grade illustrated catalog in colors, because our plant is absolutely new and fully equipped in every department and our skilled workmen know their business.

The alert up-to-the-minute buyer of printing will tell you that it is not what a piece of printing *costs*, but what it DOES that establishes its true value and brings results.

We are printers of that kind that DOES.

Are Big Business Men Bidding for Your Services?

Some men are constantly receiving *big offers* and *big propositions*—business chiefs are bidding for their services. Others have to take *anything* they can get. Sheldon has a way to pick men out of class *No. 2* and put them up in class *No. 1*. Are *you* ready for the change?

A trained man does not necessarily mean a man of years who "went through the mill." Some of the ablest young men who are *making good* in a big way, got the foundation for their training in a few months of home study. The question for *you* to decide is "How can I get the *right* training and get it *quickly*?"

The answer brings you back to Sheldon.

Sheldon Men Know How to "Sell" Themselves

If you will devote a little of your spare time at home to Sheldon methods in Salesmanship and Business Building, you need *never again* sell your services below par.

All human endeavor is "selling." When you offer your services to the highest bidder—that's selling. And the sooner you learn what salesmanship has to do with boosting *your salary* and *your* prospects, the sooner you will have big business men bidding for *your* services.

To get the story of the Sheldon idea *costs you nothing*, it comes with The Sheldon Book. But it is sent only to men in earnest—men who actually want to grow. If you belong to that class, write Sheldon today.

W. F. Lee

SOLE AGENT IN MANITOBA, SASKATCHEWAN AND ALBERTA FOR THE BEST

Salt Glazed Vitrified
Sewer Pipe

Made on the American Continent

Is invaluable for draining low lands; is unequalled for well cribbing; is impervious to the action of frost and water; for road culverts and small bridges, beyond comparison; for chimneys and chimney lining, is better than iron.

Builders' Supplies

Stone of all descriptions; white and grey lime; cement; wood fibre and hard wall plaster; hair; sand mould, fire and common brick; fire clay; Keene's cement; wood lath; river and pit sand, gravel, etc.

Asphalt and Rubber Roofing

Is the best roofing that is made; is sold under a positive guarantee; is cheaper than wood or metal shingles; is more durable and more satisfactory.

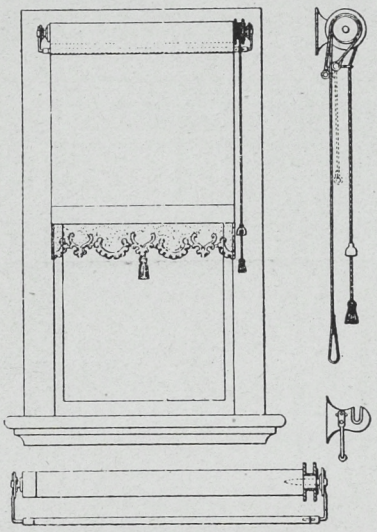
Automatic Dustproof Window Shade



No Springs to Get Out of Order

Its simplicity enables any person to at once become acquainted with its mechanism

POTENT FACTS

Experience will demonstrate that those who use this shade will be entire strangers to the trouble caused by the old style of shades.

Keeps your blinds fresh and clean by brushing off all dust, flies and insects; doing away with unsightly dust streaks which rot and spoil the shades in a short time. Springless and faultless.

If you still wish the old style spring, any size, we will sell it at the same price as other dealers.

The six rows of heavy rubber studs are arranged in such a way that they exert a positive resistance to side pressure from any direction at angles with the straight course and make skidding or slipping practically impossible.

The extra thickness of the studs gives Republic Staggard Tread Tires a riding surface equal to two ordinary smooth tread tires—meaning twice the service.

Introductory

This, the 34th Annual Edition of Henderson's Winnipeg City Directory, is presented to its Patrons with the assurance that it is as near perfection as time and thorough systematized methods can produce.

The Directory is a faithful record of the City's Growth and Progress, and furnishes exact data of its measure of prosperity.

The Edition embraces the area of GREATER WINNIPEG, covering the territory of the City proper, Elmwood, St. Boniface, Norwood, St. Vital, St. James and Kildonan.

It contains a much greater amount of information than any of its predecessors, although, in size, it is very little larger. This is accomplished by introducing the "ditto" system, which will at once commend itself to every user of the Directory. By this arrangement the information is more accessible for reference. The change has been necessary to prevent the book from becoming too bulky or unwieldy.

Population

It is customary for Directory Publishers to give an estimate of the population of a city based on the number of names the Directory contains. Henderson Directories use the multiple of 2·75, considering it conservative, but the Publishers wish it to be understood that their figures deal with GREATER WINNIPEG, and to regard them as an estimate only. IT IS NOT A CENSUS.

The Directory method is generally accepted as the proper manner in calculating the population of a city. In adopting the multiple stated, there is the same probability that the Publishers have been as much conservative as liberal. THE INCREASE IN POPULATION RECORDED IS DEFINITE. The estimate now arrived at gives the

Population of Greater Winnipeg, 227,339 Souls

The appended Table indicates the increase in the population of Winnipeg since the first issue of Henderson's Directory in 1876 :—

Year	No. of Names	Estimated Population	Increase %
1876	1,080	4,050	1·066
1880	2,156	7,847	3·451
1890	8,334	27,085	1·864
1900	15,151	50,503	3·422
1910	60,232	172,865	
1912	82,669	227,339	

The Publishers thank the Public for their courteousness in supplying information, and the Subscribers for their liberal support in the production of this work.

Seven boilers, with superheaters and mechanical stokers, supply steam for the service and for electric lighting.

In connection with the system there is a 6,000,000 gallon reservoir.

The total length of water mains December, 1910, was 208 miles.

For better fire protection, a High Pressure Special Fire Service Waterworks has been completed, having a capacity of 12,960,000 gallons per day against 300 lbs. pressure. This service is operated by 2500 h. p. gas engines. There are 8 miles of special high pressure water main in the business districts and 86 special hydrants.

FIRE DEPARTMENT

The Winnipeg Fire Alarm System, owned and operated by the City, comprises 109 miles of overhead wiring, 261 street boxes, and E. M. gongs at each of the fire stations, pumping stations, chief's residence, Electric Street Railway power house and police stations, etc. There are 10 box circuits and 4 gong circuits, and the system is arranged for manual operation; storage batteries are used for current supply. Operators are on duty day and night; and alarms can be given, also, by telephone, on calling up "100." A new high pressure service is in use, 86 hydrants being operated for that purpose.

The fire department is an uniformed one, the number of men forming the brigade, together with the equipment, being as follows:

Staff:

Chief	1
Assistant chiefs	2
Secretary	1
Stenographer	1
Captains	13
Lieutenants	11
Master Mechanic	1
Engineers	6
Assistant Engineers	6
Firemen	114
Total	156

Equipment:

75 Horses
7 Steam fire engines
6 Chemical engines
13 Hose wagons
1 50-H.P. Motor Hose Wagon
2 Aerial hook and ladder trucks, 65 and 85 feet respectively
7 Hook and ladder outfits
1 Water tower (65 feet) with deck turret
3 Glazier nozzles
2 Jumping nets
49,190 feet 43,190 ft of 2½ in. and 6,000 ft of 3½ in.) fire hose
1,500 Fire Hydrants (on low pressure service—domestic)
86 Fire Hydrants (special high pressure service)
192 Miles of domestic water mains
64 Underground fire tanks
8 Miles of high pressure water mains
2 Assistant chief's buggies
1 Chief's 60-H.P. motor

WINNIPEG WATERWORKS

The water supply for Winnipeg is obtained from 8 artesian wells sunk to depths of 60 to 300 feet; 10 pumping engines being used in the system.

The average daily consumption in December was 7,000,000 gallons.

The approximate daily capacity of the wells is upwards of 10,000,000 gallons.

The pumping capacity of the system from the wells is 25,000,000, but in addition there is a reserve capacity for a further 10,000,000 gallons from the pumping stations at the reservoirs.

The machinery, which is of the most modern type, is distributed as follows: 8 pumps in use from wells to mains, 2 at the softening plant, and the remainder at the reservoirs.

WINNIPEG GRAIN EXCHANGE

The Winnipeg Grain Exchange is by far the largest and most important one in the Dominion of Canada today, and occupies a magnificent exchange building in which is more satisfactorily handled the ever-increasing volume of business created by the enormous crops of Manitoba and the Northwest Territories.

Although the Exchange's future trading market has not been long in existence its quotations are regularly supplied by the telegraph companies to the leading grain and produce associations of Canada, Great Britain and the United States, upon whose quotations they exert a strong influence.

UNIVERSITIES, COLLEGES AND INSTITUTES

UNIVERSITY OF MANITOBA
Broadway, West of Kennedy Street.

The University of Manitoba, established by the Act of the Local Legislature in 1877, has the sole power of conferring degrees in **Arts, Law, Medicine, Engineering, Agriculture** and **Pharmacy** in the Province of Manitoba.

Degrees of **Divinity** may be granted by the various colleges affiliated with the University, provided that all candidates for the Degree of Bachelor of Divinity, not graduates of this or any other University, shall have passed a satisfactory examination on the subjects of the First and Second Years in Arts as prescribed by the University, Greek being compulsory; and such graduates in Divinity have in the University the same rights and privileges as other graduates.

The Government of the University is vested in the Chancellor appointed by the Lieutenant-Governor in Council, and a council of sixty-seven members, composed of representatives from each of the affiliated Colleges, the members of Convocation, the College of Physicians and Surgeons of Manitoba, the University Faculty and the Provincial Government.

The general superintendence of all examinations is entrusted to a Board called the Board of Studies, composed of members of the Council elected annually, as follows:: Two by each of the affiliated Colleges in Arts, two by the graduate representatives, one by the College of Physicians and Surgeons of Manitoba, one by the Manitoba Medical College, and one by the Council.

It is the duty of the Board also to report to the Council, when they see fit, on the studies of the University, and other matters connected therewith, and generally to discharge all duties that may be assigned to them by the Council.

The following Colleges are in affiliation with the University: In Arts—St. Boniface College (since 1879), St. John's College (since 1877), Manitoba College (since 1877), Wesley College (since 1888). In Medicine—Manitoba Medical College (since 1882). In Pharmacy—Manitoba College of Pharmacy (since 1902). In Agriculture—Manitoba Agriculture College (1907).
